It has been our experience that poor weather (too much or too little wind) occasionally changes our timetable on the water. As a result, you should strive to have available time to stay after your session. This may allow for a delayed start with later arrival back to the dock. We also encourage participants to help remove boats from the water, fold sails and de-rig the boats to gain additional experience about sailing

Please mail your registration and check/Money Order to Sandusky Learn to Sail
